

Praxis Skills-Web

SETA MANAGEMENT INFORMATION SYSTEM

Streamline SETA processes with Skills-Web

Praxis Skills-Web is a modern, web-enabled system that supports the core business processes of a SETA. Run it in-house or in the cloud — you can own the software and adapt it to your specific needs.

USE SKILLS-WEB TO...

- Comply with the Public Finance Management Act and Skills Development Act regulations
- Make accurate, timeous grant payments with a transparent payment process
- Route approvals through a multi-dimensional, workflow-based process
- Integrate with a single call-logging or ticketing system for your and our help desks
- Work from any web browser, with full mobile access
- Own, configure and adapt the software yourself
- Analyse current and legacy data with a built-in BI system: dashboards, pivot tables and ad-hoc extracts
- Give employers, learners, assessors, moderators and SDFs a portal to view information and load new data
- Manage uploaded supporting documents electronically
- Integrate with Microsoft Dynamics, Sage Evolution and other accounting systems
- Give all staff a simple, standard interface
- Deploy on-site or as a hosted solution

NEW AI-POWERED INTELLIGENCE

- Flag anomalies and potential errors in grant claims before payment
- Ask questions of your data in plain language and get instant answers
- Verify and classify uploaded supporting documents automatically
- Surface trends and forecasts across current and legacy data
